PROFESSIONAL SUMMARY

Software Engineer with 1+ years of experience in Java backend development, object-oriented programming, RESTful API design, and microservices architecture. Skilled in Spring Boot, Java (Core & Advanced), NestJS microservices, SQL optimization, relational databases (MySQL), and Python (Flask) for backend systems. Experienced in full-stack development using Next.js and React.js, with exposure to Git/GitHub version control, CI/CD pipelines, and Agile/SDLC practices. Oracle Certified Java Programmer (OCJP) and 5-star rated Java coder on HackerRank. Strong foundation in data structures & algorithms, design patterns, and building scalable, secure, payment-gateway-integrated applications.

TECHNICAL SKILLS

Languages: Java (Core & Advanced), Python, JavaScript, TypeScript, SQL

Backend & APIs: Spring Boot, Servlets, JSP, NestJS (Microservices), RESTful APIs, SOA

Frontend: Next.js, React.js, HTML5, CSS3, Tailwind CSS

Databases: MySQL, MongoDB, Firebase Firestore, JDBC, SQL Optimization, RDBMS, NoSQL

Payment & Integrations: Razorpay Payment Gateway, Meta WhatsApp API, Firebase Auth, Cloudinary

Tools & DevOps: Git, GitHub, Linux command-line, Maven, JUnit, CI/CD Pipelines, Eclipse, VS Code

Concepts: OOP, Data Structures & Algorithms, Multithreading, Design Patterns, Agile/SDLC

PROFESSIONAL EXPERIENCE

Software Engineer

Aug 2025 – Present

VAWE Global Technologies | Startup | Andhra Pradesh, India

- Architected and developed RESTful backend APIs using Java and Spring Boot for a Learning Management System (LMS), serving multiple concurrent users with optimized response times.
- Built the VAWE Institutes web application end-to-end using Next.js and React.js with server-side rendering for performance and SEO.
- Integrated Firebase Authentication for secure user login, role-based access control, and session management across LMS modules.
- Designed and implemented scalable Firestore database schemas for course management, user progress tracking, and enrollments while improving LMS performance by 35% through component optimization, lazy loading, and responsive Tailwind CSS design.
- Collaborated in an Agile sprint environment, participating in code reviews, daily standups, and iterative feature releases.

Software Developer Intern

May 2025 – Aug 2025

Snap U Media (Weblizer) | UK-Based Company | Remote

- Developed pixel-perfect, responsive web pages using React.js, Next.js, and Tailwind CSS meeting international client standards.
- Integrated Firebase Firestore for real-time data synchronization and backend database management.
- Built reusable, modular component libraries ensuring consistent UI/UX and cross-browser compatibility.

Java Backend Intern

Nov 2024 – Jan 2025

Sava's Tech Solutions | Hyderabad, India

- Developed modular Java backend modules with MySQL integration, applying OOP and SOLID principles for maintainability.
- Wrote optimized SQL queries for reporting and data retrieval, reducing query execution time significantly.

KEY PROJECTS

Mounis Maguva – E-Commerce Web Application

March 2026 – May 2026 (3 Months)

Next.js · Firebase · Firestore · Cloudinary

- Developed a responsive e-commerce web application using Next.js, React.js, Tailwind CSS, and Firebase.
- Implemented product catalog management, dynamic data integration, and optimized application performance.

- Enhanced user experience with responsive design, fast loading times, and seamless shopping workflows.
- Live Website: mounismaguva.com

SkillWins – SaaS Ed-Tech Platform for VAWE

Nov 2025 – April 2026 (6 Months)

Next.js · Firebase · Firestore · Razorpay · Meta WhatsApp API · Cloudinary

- Built a production-ready SaaS platform with end-to-end architecture: user onboarding, course management, and subscription billing.
- Integrated Razorpay payment gateway with webhook handling for real-time payment verification, refund processing, and subscription lifecycle management — directly relevant to fintech payment systems.
- Implemented Meta WhatsApp Business API for automated user notifications, course alerts, and transactional messaging workflows.
- Designed Firestore database schemas for high-throughput queries supporting concurrent users with efficient indexing strategies.
- Enforced secure access control with Firebase Auth (JWT tokens, role-based permissions), ensuring data privacy compliance.

Vyasa Studies – Educational Web Platform

Feb 2026 – March 2026 (3 Months)

Next.js · Tailwind CSS · Firebase

- Developed an educational web platform using Next.js, Tailwind CSS, and Firebase.
- Built reusable and responsive UI components ensuring cross-browser compatibility across Chrome, Firefox, Edge, Safari, and Opera.
- Optimized website performance and SEO to improve accessibility, visibility, and user engagement.
- Delivered a seamless user experience across desktop, tablet, and mobile devices.
- Live Website: vyasastudies.in

VAWE Global Technologies – Corporate Website

Oct 2025 – Nov 2025 (2 Months)

Next.js · React.js · Tailwind CSS

- Designed and developed a professional corporate website for a software development company using Next.js, React.js, Tailwind CSS, and modern web technologies.
- Created responsive service pages showcasing software development, web applications, cloud solutions, and digital services.
- Optimized website performance, UI/UX, and SEO to strengthen the company's online presence and lead generation.
- Delivered a scalable and maintainable frontend architecture with reusable components and mobile-first design principles.
- Live Website: vawetechnologies.com

VAWE Institute – Educational & Training Platform

Aug 2025 – Sep 2025 (2 Months)

Next.js · React.js · Tailwind CSS · Firebase

- Developed and maintained a modern educational platform for a software training institute.
- Built responsive course management interfaces, training program pages, and student-focused user experiences.
- Implemented SEO optimization, performance enhancements, and cross-browser compatibility to improve accessibility and engagement.
- Contributed to LMS-related features and dynamic content management for training and placement-oriented programs.
- Live Website: vaweinstitute.com

ACADEMIC PROJECTS

Face Recognition Attendance System

December 2024 – Feb 2025

Flask · Python · DeepFace · OpenCV · MySQL

- Built a real-time biometric attendance system using facial recognition with 95%+ accuracy using DeepFace (Haar Cascades) and OpenCV.
- Designed MySQL database schema for attendance records with admin dashboard for reporting and analytics.
- Implemented dynamic admin controls for employee management and attendance override functionality.

EDUCATION

Master of Computer Applications (MCA)

June 2023 – May 2025

Aditya Engineering College — CGPA: 8.5

B.Sc in Computer Science

June 2019 – May 2022

Sir C.R. Reddy College, Eluru — CGPA: 7.5

CERTIFICATIONS & TRAINING

Java Full Stack Developer Course

Nov 2022 – Apr 2023

Inspner Academy, Hyderabad, India

- Completed an intensive Java Full Stack Developer training program covering end-to-end software development skills.
- Learned Core Java fundamentals, Object-Oriented Programming, data structures, and advanced Java concepts.
- Studied frontend technologies including HTML, CSS, and React.js for building responsive, modern web interfaces.
- Gained hands-on experience with relational databases using MySQL and NoSQL databases using MongoDB.
- Built practical projects integrating Java backend with frontend and database layers, reinforcing full-stack development expertise.
- Oracle Certified Java Programmer (OCJP) — Oracle Corporation — February 2024
- JavaScript Certification — IIT Bombay, Spoken Tutorial Project — November 2024
- 5-Star Java Developer — HackerRank (Top-rated Java problem solver) — October 2023
- LeetCode — 3 Badges — Consistent algorithmic problem-solving record
- National Means Cum-Merit Scholarship — District 3rd Rank (Merit-based national award) — November 2014
